Clearance letter no. SIA/MH/MIS/129500/20191 dtd. 29.04.2021.

Dear Sir,

This is with reference to the above subject for our project. We are submitting herewith our half yearly monitoring report with following contents:

- Data Sheet.
- Compliance Report.
- Post monitoring report.
- Energy conservation report.
- Copy of Environmental Clearance.
- Copy of Consent to Establish.
- Copies of the advertisement published in the newspaper (Marathi & English).

This is for your kind information.

Thanking you,
Yours truly,
M/s. A Advani Properties LLP

COMPLIANCE REPORT

Developer

**M/S. Advani Properties LLP,
S. No. 81/27 (pt), Mundhwa, Pune**

COMPLIANCE REPORT

TERMS & CONDITIONS

SEAC Specific Conditions -

1.	PP to ensure compliance of Tree NOC issued regarding transplantation of 11 number of trees.	Condition is noted. Copies of Tree NOCs are attached as Annexure I.
2.	PP to provide minimum 30% of total parking arrangement with electric charging facility by providing charging points at suitable places.	A total of 390 nos. of electric charging points are provided as discussed during the time of SEIAA meeting.
3.	An Architect certificate shall be submitted stating that since appraisal of the project no additional construction is carried out there is no change in the project.	A copy of Architect certificate is attached as Annexure II.

SEIAA Specific Conditions -

1.	PP to strictly adhere to all the conditions mentioned in Maharashtra Protection & Prevention of Trees Act, 1975 as amended during the validity of EC.	Yes, we noted the condition & agreeable to the same.
2.	PP to keep open space unpaved so as to ensure permeability of water. However, whenever paving is deemed necessary. PP to provide grass pavers of suitable types & strength to increase water permeable area as well as to allow effective fire tender movement.	Yes, we noted the condition & agreeable to the same.
3.	PP to achieve at least 5% of total energy requirement from solar/ other renewable sources.	Condition is noted. Details provided in the Energy Conservation measures section.
4.	PP Shall comply with Standard EC conditions mentioned in the Office Memorandum issued by MoEF & CC vide F.No.22-34/2018-IA.III dt. 04.01.2019.	Yes, we noted the condition & agreeable to the same.

General Conditions for Construction Phase: -

1.	The solid waste generated should be properly collected and segregated. Dry/ inert solid	The solid waste generated shall be properly collected and segregated and also being stored
----	---	--

	waste should be disposed off to the approved sites for land filling after recovering recyclable material.	separately in two bin system. Biodegradable Waste of operation phase shall be processed in OWC and manure so obtained will be used for landscaping. Non-biodegradable Waste shall be managed through recyclers.
2.	Disposal of muck during construction phase should not create any adverse effect on the neighboring communities and be disposed taking the necessary precautions for general safety and health aspects of people, only in approved sites with the approval of competent authority.	All construction waste gets collected and segregated properly. Most of that is reused for the construction activity. Muck will be dried before its final disposal.
3.	Any hazardous waste generator during construction phase should be disposed off as per applicable rules and norms with necessary approvals of the Maharashtra pollution Control Board.	Used oil would be generated from the site, will be disposed through Authorized vendor of MPCB.
4.	Adequate drinking water and sanitary facilities should be provided for construction workers at the site. Provision should be made for mobile toilets. The safe disposal of wastewater and solid wastes generated during the construction phase should be ensured.	Adequate drinking water facility is provided for the workers at the site during construction phase. Toilets are provided for construction workers. Bins have been provided to dispose the municipal solid waste generated from labour camps.
5.	Arrangement shall be made that waste water and storm water do not get mixed.	Separate confined sewage system has been proposed which is connected to STP for the treatment and reuse of the treated water. Excess treated water shall be disposed off into the sewer drain. Storm water drain shall be in covered drain system and will be connected to municipal drain.
6.	Water demand during construction should be reduced by use of pre-mixed concrete, curing agents and other best practices referred.	Ready mix concrete is used to reduce water demand during construction.
7.	The ground water level and its quality should be monitored regularly in consultation with Ground water Authority.	There is no extraction of ground water in this project. The ground water levels and its quality are checked before commencement of the project. The copy of the same is enclosed herewith.
8.	Permission to draw ground water shall be	We are not drawing any water from ground. We are using only Tanker water for

	obtained from the competent Authority prior to construction/operation of the project.	construction.
9.	Fixtures for showers, toilet flushing and drinking should be of low flow either by use of aerators or pressure reducing devices or sensor-based control.	Adequate measures will be taken into consideration to minimize the wastage of water.
10.	The Energy Conservation Building Code shall be strictly adhered to	Condition noted.
11.	All the topsoil excavated during construction activities should be stored for use I n horticulture / landscape development within the project site.	Excavated topsoil is used for landscaping.
12.	Additional soil for leveling of the proposed site shall be generated within the sites (to the extent possible) so that natural drainage system of the area is protected and improved.	The cut & fill is minimum to the extent possible. The cut & fill is accordance with the natural contour and it will be maintained in such a way that the natural drainage will not disturb. There will not be import and export of soil from site.
13.	Soil and ground water samples will be tested to ascertain that there is no threat to ground water quality by leaching of heavy metals and other toxic contaminants.	Soil testing was done and according to the reports all the parameters are within the prescribed norms.
14.	PP to strictly adhere all the conditions mentioned in Maharashtra (Urban Areas) Protection and Preservation of Trees Act, 1995 as amended during the validity of Environment Clearance.	Condition noted.
15.	The diesel generator sets to be used during construction phase should be low sulphur diesel type and should conform to Environments (Protection) Rules prescribed for air and noise emission standards.	DG set specifications is as per CPCB norms.
16.	PP to strictly adhere all the conditions mentioned in Maharashtra (Urban Areas) Protection and Preservation of Trees Act, 1995 as amended during the validity of Environment Clearance.	Condition noted.
17.	Vehicles hired for bringing construction material to the site should be in good condition and should have a pollution check certificate and should conform to applicable air and noise emission standards and should	The PUC checked/authorized vehicles are allowed on the site for transfer of material.

	be operated only during non-peak hours.	
18.	Ambient noise levels should conform to residential standards both during day and night. Incremental pollution loads on the ambient air and noise quality should be closely monitored during construction phase. Adequate measures should be made to reduce ambient air and noise level during construction phase, so as to conform to the stipulated standards by CPCB/MPCB.	<p>Following care are taken regarding noise levels with conformation to the residential area.</p> <ol style="list-style-type: none"> 1. Use of well-maintained equipment fitted with silencers. 2. Noise shields near the heavy construction operations are provided. 3. Construction activities are limited to daytime hours only. <p>Also use of Personal Protective Equipment (PPE) like ear muffs and ear plug during construction activities.</p> <p>The ambient air and noise report is enclosed herewith. The report indicates that the same are within the prescribed norms defined by the concern authority.</p>
19.	Diesel power generating sets proposed as sources of backup power for elevators and common area illumination during operation phase should be of enclosed type and conform to rules made under the Environment (Protection) Act, 1986. The height of stack of DG sets should be equal to the height needed for the combined capacity of all proposed GD sets. Use low sulphur diesel. The location of the DG sets may be decided with in consultation with Maharashtra Pollution Control Board.	<ul style="list-style-type: none"> • 2 X 910 KVA D.G. sets will be provided as back up for Commercial buildings. • D.G. sets will be provided with silencer & acoustic enclosures. The stacks shall be provided as per MPCB norms.
20.	Regular supervision of the above and other measures for monitoring should be in place all through the construction phase, so as to avoid disturbance to the surroundings.	Regular supervision done by our site engineer to take care of the construction activity and of the surroundings.
General Conditions operation phase :-		
1.	The solid waste generated should be properly collected and segregated. Dry/ inert solid waste should be disposed off to the approved sites for land filling after recovering recyclable material.	<p>The solid waste generated shall be properly collected and segregated and also being stored separately in two bin system.</p> <p>Biodegradable Waste of operation phase shall be processed in OWC and manure so obtained will be used for landscaping.</p> <p>Non-biodegradable Waste shall be managed through recyclers.</p>

2.	E- waste shall be disposed through Authorized vendor as per E-waste (Management and Handling) Rules, 2016.	E-waste generated will be managed as per E-Waste Management Rules, 2016. It will be handed over to authorized vendor.
3.	The installation of the Sewage Treatment Plant (STP) should be certified by an independent expert and a report in this regard should be submitted to the Ministry before the project is commissioned for operation. Treated effluent emanating from STP shall be recycled / reused to the maximum extent possible. Treatment of 100% gray water by decentralized treatment should be done. Discharge of unused treated effluent shall conform to the norms and standards of the Maharashtra Pollution Control Board. Necessary measures should be made to mitigate the odour problem from STP.	STP with 120 KLD capacity has been proposed. Construction and installation of STP shall be carried out by expert consultant. Treated water shall be used for the flushing and Gardening, Landscaping and Green belt area development. After the satisfactory completion of the work, the installation will be get certified from independent expert agency and report in this regard will be submitted to the Ministry of Environment, Forest and Climate Change before the project is commissioned for operation.
4.	Project proponent shall ensure completion of STP, MSW disposal facility, green belt developed prior to occupation of the buildings. As agreed during the SEIAA meeting, PP to explore possibility of utilizing excess treated water in the adjacent area for gardening before discharging it into sewer line No physical occupation or allotment will be given unless all above said environmental infrastructure is installed and made functional including water requirement in	The provisions of STP, MSW disposal facility & Green Belt development will be completed before getting the Occupation certificate.
5.	The occupancy certificate shall be issued by the local planning authority to the project only after ensuring sustained availability of drinking, water, connectivity of sewer line to the project site must be avoided. Parking should be fully internalized and no public space should be utilized.	Condition is Noted.
6.	Traffic congestion near the entry and exit points from the roads adjoining the proposed project site must be avoided. Parking should be fully internalized and no public space should be utilized.	<ul style="list-style-type: none"> This effect would be prominent during construction as well as operation phase. The probability of inconvenience faced due to the frequency of truck movement during construction phase would be minimized by better control of traffic movement in the area. Noise levels expected from the planned operating conditions have been assessed and are likely to be within acceptable levels. The impacts have been mitigated by the

		<p>suggested measures in the “air control and management section”.</p> <ul style="list-style-type: none"> • Anti-honking sign boards are placed in the parking areas and on entry and exit point. The project will be provided with sufficient road facilities within the project premises and there will be a large area provided for the parking of vehicles. • Width of all internal roads (m): Minimum 9.00 m. wide road. • Parking Details: Two-Wheeler Parking- 1047 No's Four-Wheeler Parking- 240 No's 						
7.	PP to provide adequate electric charging points for electric vehicles (EVs.)	Condition Noted.						
8.	Green Belt Development shall be carried out considering CPCB guidelines including selection of plant species and in consultation with local DFO/ Agriculture Dept.	<ul style="list-style-type: none"> • The green area proposed is 418.80 m². Accordingly, same will be provide as per approved plan. • A combination of native evergreen trees and ornamental flowering trees, shrubs and palms are planned in the complex. • There will be tree plantation of about 79 nos. <p>Plantation Details: Species will be selected as per CPCB greenbelt guidelines and common species available in the proposed area.</p>						
9.	A separate environment management cell with qualified staff shall be set up for implantation of the stipulated environmental safeguards.	Separate environment management cell with qualified staff is formed and implementing the same.						
10.	Separate funds shall be allocated for implementation of environmental protection measures/ EMP along with item-wise breaks-up. These cost shall be included as part of the project cost. The funds earmarked for the environment protection measures shall not be diverted for other purposes and year-wise expenditure should be reported to the MPCB and this department.	<p>EMP cost has been worked out and allocated for all air pollution devices and other facilities.</p> <p>EMP Cost:</p> <p>Construction Phase:</p> <table border="1"> <thead> <tr> <th>Type</th> <th>Details</th> <th>Cost</th> </tr> </thead> <tbody> <tr> <td>Capital</td> <td>Air Environment, Water Environment, Land Environment, Socio economic etc.</td> <td>10.88</td> </tr> </tbody> </table>	Type	Details	Cost	Capital	Air Environment, Water Environment, Land Environment, Socio economic etc.	10.88

11.	The project management shall advertise at least in two local newspapers widely circulated in the region around the project, one of which shall be in the Marathi language of the local concerned within seven days of issue of this letter, informing that the project has been accorded environmental clearance and copies of clearance letter are available with the Maharashtra Pollution Control Board and may also be seen at Website at http://ec.maharashtra.gov.in .	The advertisement is published in Marathi and English language local newspapers. In Marathi newspaper 'The Maharashtra Times' dtd. 13.06.2022 & in English newspaper 'The Economic Times' Dtd. 13.06.2022 respectively. Also, the advertisement is displayed on our company's website.																														
12.	Project management should submit half yearly compliance reports in respect of the stipulated prior environmental clearance terms and conditions in hard and soft copies to the MPCB and this department, on 1st June and 1st December of each calendar year.	We herewith submit six monthly reports to Environment Department, Mantralaya & MPCB.																														
13.	A copy of the clearance letter shall be sent by proponent to the concerned Municipal Corporation and the local NGO, if any, from whom suggestions/representations, if any, were received while processing the proposal. The clearance letter shall also be put on the website of the Company by the proponent.	Yes, we noted the condition & agreeable to the same.																														
14.	The proponent shall upload the status of compliance of the stipulated EC conditions, including results of monitored data on their	Regular monitoring is been carried out and the results of the same are submitted to concern authority along with the report.																														

	<p>website and shall update the same periodically. It shall simultaneously be sent to the Regional Office of MoEF, the respective Zonal Office of CPCB and the SPCB. The criteria pollutant levels mainly; SPM, RSPM, SO₂, NO_x (ambient levels as well as stack emissions) or critical sector parameters, indicated for the project shall be monitored and displayed at a convenient location near the main gate of the company in the public domain.</p>	
--	---	--

General EC Conditions: -

1.	PP has to abide by the conditions stipulated by SEAC & SEIAA.	Condition is noted.
2.	If applicable consent for Establishment shall be obtained from Maharashtra Pollution Control Board under Air and water Act and a copy shall be submitted to the Environment Department before start of any construction work at the site.	
3.	Under the provisions of Environment (Protection) Act, 1986, legal action shall be initiated against the project proponent if it was found that construction of the project has been started without obtaining environmental clearance.	Environmental Clearance is already obtained. Amended Consent to Establish obtained.
4.	The project proponent shall also submit six monthly reports on the status of compliance of the stipulated EC conditions including results of monitored data (both in hard copies as well as by email) to the respective Regional Office of MoEF, the respective Zonal Office of CPCB and the SPCB.	We herewith submit six monthly reports to Environment Department, Mantralaya & MPCB.
5.	The environmental statement for each financial year ending 31 st March in Form - V as is mandated to be submitted by the project proponent to the concerned State Pollution Control Board as prescribed under the Environment (Protection) Rules, 1986, as amended subsequently, shall also be put on the website of the company along with the status of compliance of EC conditions and shall also be sent to the respective Regional	Yes, we noted the condition & agreeable to the same.

	Offices of MoEF by e-mail.	
6.	This environmental Clearance is issued to obtaining NoC from forestry & wildlife angle including clearance from the standing committee of the National Board for wild Life as if applicable & this environment clearance does not necessarily implies the forestry & wild life clearance granted to the project will be considered separately on merit.	Condition is noted & agreeable to the same.
7.	The environmental Clearance is being issued without prejudice to the court case pending in the court of law and it does not mean that project proponent has not violated any environmental laws in the past and whatever decision of the Hon`ble court will be binding on the project proponent. Hence this clearance doesn't give immunity to the project proponent in the case filed against him.	Yes, we noted the condition & agreeable to the same.
8.	The environmental Clearance is being issued purely from environment point of view without prejudice to any court cases and all other applicable permissions/ NoCs shall be obtained before starting proposed work at site.	Condition is noted & agreeable to the same.
9.	In case of submission of false document and non-compliance of stipulated conditions, Authority/ Environment Department will revoke or suspend the Environmental Clearance without any intimation and initiate appropriate legal action under Environmental Protection Act, 1986.	Yes, we noted the condition & agreeable to the same.
10.	Validity of Environmental Clearance: The environmental clearance accorded shall be valid for a period of 7 years as per MoEF&CC Notification dated 29th April, 2015.	Noted. Shall be as per the circulars prevailing at the time of granting EC.
11.	The above stipulations would be enforced among others under the Water (Prevention and Control of Pollution) Act, 1974, the Environment (Protection) Act, 1986 and rules there under, Hazardous Wastes (Management and Handling) Rules, 1989 and its amendments, the public Liability	Yes, we noted the condition & agreeable to the same.

	Insurance Act, 1991 and its amendments.	
12.	Any appeal against this environmental clearance shall lie with the National Green Tribunal (Western Zone Bench, Pune), New Administrative Building, 151 Floor, D-, Wing, Opposite Council Hall, Pune, if preferred, within 30 days as prescribed under Section 16 of the National Green Tribunal Act, 2010.	Yes, we noted the condition & agreeable to the same.

ENERGY CONSERVATION MEASURES

Energy saving measures:

The following Energy Conservation Methods are proposed in the project:

- Solar PV will be provided for common lighting.
- Auto timer control for external and common lightening.
- Use of LED lamps in all public/ common areas
- Efficient motors & pumping system, Efficient lifts
- Roof, wall & glass U value to meet energy performance criteria.

Sr. No	SUMMARY		UNITS
1	Total Connected load	2589.46	KW

Ambient Noise Level Monitoring Report

Report No. - EAEPL/N/06/24/01624		Report Date - 20.06.2024	
ULR Number: TC11189240000001624F			
Name of Customer	M/s. A Advani Properties LLP	Reference – Work Order No. AAPL/WO/2023-24/212	
Site Address	"Platinum Capital" Project, Sr. No. 81/27, CTS No. 1340, Mundhwa, Pune – 411036.		
Nature and Description of Sample	Ambient Noise	Sample Collected by	EAEPL Laboratory
Sampling locations and Sample Code	EAEPL/N/06/24/01624	Sample quantity and packing	Not Applicable
Date of Sampling	13.06.2024	Date of Receipt	Not Applicable
Sampling Procedure	EAEPL/LAB/SOP/04		
Period of Analysis	Not Applicable		
Report for the month	JUNE, 2024		

Discipline: Chemical

Group: Atmospheric Pollution

Monitoring Locations	Units	Results		CPCB Norms	
		Day Time	Night Time	Day	Night
Near Main Gate of Site	dB(A) Leq.	54.6	44.6	55	45
Near Back Side of Site	dB(A) Leq.	54.0	44.5	55	45
Near Center Side of Site	dB(A) Leq.	53.6	43.6	55	45
Near Site Office of Site	dB(A) Leq.	52.4	42.5	55	45

Remark: The noise level was observed to be within CPCB limit at all of the locations.

**ENVIRONMENT
CLEARANCE**

Government of India
Ministry of Environment, Forest and Climate Change
(Issued by the State Environment Impact Assessment
Authority(SEIAA), Maharashtra)

To,

The Partner
A ADVANI PROPERTIES LLP
D 10/11, Mantri Manor Society, Lane No. 5, Koregaon Park, Pune 411001
-411001

Subject: Grant of Environmental Clearance (EC) to the proposed Project Activity under the provision of EIA Notification 2006-regarding

Sir/Madam,

This is in reference to your application for Environmental Clearance (EC) in respect of project submitted to the SEIAA vide proposal number SIA/MH/MIS/256269/2022 dated 11 Feb 2022. The particulars of the environmental clearance granted to the project are as below.

1. EC Identification No.	EC22B038MH198327
2. File No.	SIA/MH/MIS/256269/2022
3. Project Type	Expansion
4. Category	B2
5. Project/Activity including Schedule No.	8(a) Building and Construction projects
6. Name of Project	"Platinum Capital" by M/s. A Advani Properties LLP
7. Name of Company/Organization	A ADVANI PROPERTIES LLP
8. Location of Project	Maharashtra
9. TOR Date	N/A

The project details along with terms and conditions are appended herewith from page no 2 onwards.

Date: 09/06/2022

(e-signed)
Manisha Patankar Mhaiskar
Member Secretary
SEIAA - (Maharashtra)

Note: A valid environmental clearance shall be one that has EC identification number & E-Sign generated from PARIVESH. Please quote identification number in all future correspondence.

This is a computer generated cover page.

STATE LEVEL ENVIRONMENT IMPACT ASSESSMENT AUTHORITY

No. SIA/MH/MIS/256269/2022
Environment & Climate Change Department
Room No. 217, 2nd Floor,
Mantralaya, Mumbai- 400032.

To
M/s. A Advani Properties LLP
S. No. 81/27 (pt), Corresponding CTS No. 1340
Mouje Mundhwa, Pune

Subject: Environmental Clearance for "Platinum Capital" at S. No. 81/27 (pt),
Corresponding CTS No. 1340 Mouje Mundhwa, Pune by M/s. A
Advani Properties LLP

Reference: Application no. SIA/MH/MIS/256269/2022

This has reference to your communication on the above-mentioned subject. The proposal was considered by the SEAC- 3 in its 124th & 138th meeting under screening category 8 (a) B2 as per EIA Notification, 2006 and recommend to SEIAA. Proposal then considered in 233rd & 243rd (Day-1) meeting of State Level Environment Impact Assessment Authority (SEIAA).

2. Brief Information of the project submitted by you is as below: -

Name of project	Platinum Capital by A Advani Properties LLP
Project Category	8a (B2)
Type Of Institution	Private
Project Proponent	Name: Mr. Varun Anil Advani Office address: D 10/11 Mantri Manor Society, Lane No. 5, Koregaon Park Pune 411001, Pune, Maharashtra- 411001 Contact No: 020-26155859 e-mail: info@advani.com

3. Proposal is an expansion of existing construction project. PP obtained earlier EC vide SIA/MH/MIS/129500/2019 dated 29.04.2021 for total BUA of 23,574.62 m². The proposal has been considered by SEIAA in its 243rd (Day-1) meeting and decided to accord Environment Clearance to the said project under the provisions of Environment Impact Assessment Notification, 2006 subject to implantation of following terms and conditions-

Specific Conditions:

A. SEAC Conditions-

1. PP to Ensure compliance of Tree NOC issued regarding transplantation of 11 number of trees.
2. PP to provide minimum 30% of total parking arrangement with electric charging facility by providing charging points at suitable places.
3. An Architect Certificate shall be submitted stating that since appraisal of the project no additional construction is carried out there is no change in the project.

B. SEIAA Conditions-

1. PP to strictly adhere to all the conditions mentioned in Maharashtra (Urban Areas) Protection and Preservation of Trees Act, 1975 as amended during the validity of Environment Clearance.
2. PP to keep open space unpaved so as to ensure permeability of water. However, whenever paving is deemed necessary, PP to provide grass pavers of suitable types & strength to increase the water permeable area as well as to allow effective fire tender movement.
3. PP to achieve at least 5% of total energy requirement from solar/other renewable sources.
4. PP Shall comply with Standard EC conditions mentioned in the Office Memorandum issued by MoEF& CC vide F.No.22-34/2018-IA.III dt.04.01.2019.

General Conditions:

A. Construction Phase :-

- I. The solid waste generated should be properly collected and segregated. Dry/inert solid waste should be disposed of to the approved sites for land filling after recovering recyclable material.
- II. Disposal of muck, Construction spoils, including bituminous material during construction phase should not create any adverse effect on the neighbouring communities and be disposed taking the necessary precautions for general safety and health aspects of people, only in the approved sites with the approval of competent authority.
- III. Any hazardous waste generated during construction phase should be disposed of as per applicable rules and norms with necessary approvals of the Maharashtra Pollution Control Board.
- IV. Adequate drinking water and sanitary facilities should be provided for construction workers at the site. Provision should be made for mobile toilets. The safe disposal of wastewater and solid wastes generated during the construction phase should be ensured.
- V. Arrangement shall be made that waste water and storm water do not get mixed.
- VI. Water demand during construction should be reduced by use of pre-mixed concrete, curing agents and other best practices.
- VII. The ground water level and its quality should be monitored regularly in consultation with Ground Water Authority.
- VIII. Permission to draw ground water for construction of basement if any shall be obtained from the competent Authority prior to construction/operation of the project.

- IX. Fixtures for showers, toilet flushing and drinking should be of low flow either by use of aerators or pressure reducing devices or sensor based control.
- X. The Energy Conservation Building code shall be strictly adhered to.
- XI. All the topsoil excavated during construction activities should be stored for use in horticulture / landscape development within the project site.
- XII. Additional soil for levelling of the proposed site shall be generated within the sites (to the extent possible) so that natural drainage system of the area is protected and improved.
- XIII. Soil and ground water samples will be tested to ascertain that there is no threat to ground water quality by leaching of heavy metals and other toxic contaminants.
- XIV. PP to strictly adhere to all the conditions mentioned in Maharashtra (Urban Areas) Protection and Preservation of Trees Act, 1975 as amended during the validity of Environment Clearance.
- XV. The diesel generator sets to be used during construction phase should be low sulphur diesel type and should conform to Environments (Protection) Rules prescribed for air and noise emission standards.
- XVI. PP to strictly adhere to all the conditions mentioned in Maharashtra (Urban Areas) Protection and Preservation of Trees Act, 1975 as amended during the validity of Environment Clearance.
- XVII. Vehicles hired for transportation of Raw material shall strictly comply the emission norms prescribed by Ministry of Road Transport & Highways Department. The vehicle shall be adequately covered to avoid spillage/leakages.
- XVIII. Ambient noise levels should conform to residential standards both during day and night. Incremental pollution loads on the ambient air and noise quality should be closely monitored during construction phase. Adequate measures should be made to reduce ambient air and noise level during construction phase, so as to conform to the stipulated standards by CPCB/MPCB.
- XIX. Diesel power generating sets proposed as source of backup power for elevators and common area illumination during construction phase should be of enclosed type and conform to rules made under the Environment (Protection) Act, 1986. The height of stack of DG sets should be equal to the height needed for the combined capacity of all proposed DG sets. Use low sulphur diesel is preferred. The location of the DG sets may be decided with in consultation with Maharashtra Pollution Control Board.
- XX. Regular supervision of the above and other measures for monitoring should be in place all through the construction phase, so as to avoid disturbance to the surroundings by a separate environment cell /designated person.

B. Operation phase:-

- I. a) The solid waste generated should be properly collected and segregated. b) Wet waste should be treated by Organic Waste Converter and treated waste (manure) should be utilized in the existing premises for gardening. And, no wet garbage will be disposed outside the premises. c) Dry/inert solid waste should be disposed of to the approved sites for land filling after recovering recyclable material.
- II. E-waste shall be disposed through Authorized vendor as per E-waste (Management and Handling) Rules, 2016.
- III. a) The installation of the Sewage Treatment Plant (STP) should be certified by an independent expert and a report in this regard should be submitted to the MPCB and Environment department before the project is commissioned for operation. Treated effluent emanating from STP shall be recycled/ reused to the maximum extent possible. Treatment of 100% grey water by decentralized treatment should be done.

Necessary measures should be made to mitigate the odour problem from STP. b) PP to give 100 % treatment to sewage /Liquid waste and explore the possibility to recycle at least 50 % of water, Local authority should ensure this.

- IV. Project proponent shall ensure completion of STP, MSW disposal facility, green belt development prior to occupation of the buildings. As agreed during the SEIAA meeting, PP to explore possibility of utilizing excess treated water in the adjacent area for gardening before discharging it into sewer line. No physical occupation or allotment will be given unless all above said environmental infrastructure is installed and made functional including water requirement.
- V. The Occupancy Certificate shall be issued by the Local Planning Authority to the project only after ensuring sustained availability of drinking water, connectivity of sewer line to the project site and proper disposal of treated water as per environmental norms.
- VI. Traffic congestion near the entry and exit points from the roads adjoining the proposed project site must be avoided. Parking should be fully internalized and no public space should be utilized.
- VII. PP to provide adequate electric charging points for electric vehicles (EVs).
- VIII. Green Belt Development shall be carried out considering CPCB guidelines including selection of plant species and in consultation with the local DFO/ Agriculture Dept.
- IX. A separate environment management cell with qualified staff shall be set up for implementation of the stipulated environmental safeguards.
- X. Separate funds shall be allocated for implementation of environmental protection measures/EMP along with item-wise breaks-up. These cost shall be included as part of the project cost. The funds earmarked for the environment protection measures shall not be diverted for other purposes.
- XI. The project management shall advertise at least in two local newspapers widely circulated in the region around the project, one of which shall be in the Marathi language of the local concerned within seven days of issue of this letter, informing that the project has been accorded environmental clearance and copies of clearance letter are available with the Maharashtra Pollution Control Board and may also be seen at Website at <http://parivesh.nic.in>
- XII. Project management should submit half yearly compliance reports in respect of the stipulated prior environment clearance terms and conditions in hard & soft copies to the MPCB & this department, on 1st June & 1st December of each calendar year.
- XIII. A copy of the clearance letter shall be sent by proponent to the concerned Municipal Corporation and the local NGO, if any, from whom suggestions/representations, if any, were received while processing the proposal. The clearance letter shall also be put on the website of the Company by the proponent.
- XIV. The proponent shall upload the status of compliance of the stipulated EC conditions, including results of monitored data on their website and shall update the same periodically. It shall simultaneously be sent to the Regional Office of MoEF, the respective Zonal Office of CPCB and the SPCB. The criteria pollutant levels namely; SPM, RSPM, SO₂, NO_x (ambient levels as well as stack emissions) or critical sector parameters, indicated for the project shall be monitored and displayed at a convenient location near the main gate of the company in the public domain.

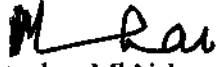

C. General EC Conditions:-

- I. PP has to strictly abide by the conditions stipulated by SEAC & SEIAA.
- II. If applicable Consent for Establishment" shall be obtained from Maharashtra Pollution Control Board under Air and Water Act and a copy shall be submitted to

the Environment department before start of any construction work at the site.

- III. Under the provisions of Environment (Protection) Act, 1986, legal action shall be initiated against the project proponent if it was found that construction of the project has been started without obtaining environmental clearance.
 - IV. The project proponent shall also submit six monthly reports on the status of compliance of the stipulated EC conditions including results of monitored data (both in hard copies as well as by e-mail) to the respective Regional Office of MoEF, the respective Zonal Office of CPCB and the SPCB.
 - V. The environmental statement for each financial year ending 31st March in Form-V as is mandated to be submitted by the project proponent to the concerned State Pollution Control Board as prescribed under the Environment (Protection) Rules, 1986, as amended subsequently, shall also be put on the website of the company along with the status of compliance of EC conditions and shall also be sent to the respective Regional Offices of MoEF by e-mail.
 - VI. No further Expansion or modifications, other than mentioned in the EIA Notification, 2006 and its amendments, shall be carried out without prior approval of the SEIAA. In case of deviations or alterations in the project proposal from those submitted to SEIAA for clearance, a fresh reference shall be made to the SEIAA as applicable to assess the adequacy of conditions imposed and to add additional environmental protection measures required, if any.
 - VII. This environmental clearance is issued subject to obtaining NOC from Forestry & Wild life angle including clearance from the standing committee of the National Board for Wild life as if applicable & this environment clearance does not necessarily implies that Forestry & Wild life clearance granted to the project which will be considered separately on merit.
3. The environmental clearance is being issued without prejudice to the action initiated under EP Act or any court case pending in the court of law and it does not mean that project proponent has not violated any environmental laws in the past and whatever decision under EP Act or of the Hon'ble court will be binding on the project proponent. Hence this clearance does not give immunity to the project proponent in the case filed against him, if any or action initiated under EP Act.
 4. This Environment Clearance is issued purely from an environment point of view without prejudice to any court cases and all other applicable permissions/ NOCs shall be obtained before starting proposed work at site.
 5. In case of submission of false document and non-compliance of stipulated conditions, Authority/ Environment Department will revoke or suspend the Environment clearance without any intimation and initiate appropriate legal action under Environmental Protection Act, 1986.
 6. Validity of Environment Clearance: The environmental clearance accorded shall be valid as per EIA Notification, 2006, amended from time to time.
 7. The above stipulations would be enforced among others under the Water (Prevention and Control of Pollution) Act, 1974, the Air (Prevention and Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986 and rules there under, Hazardous Wastes (Management and Handling) Rules, 1989 and its amendments, the public Liability Insurance Act, 1991 and its amendments.

8. Any appeal against this Environment clearance shall lie with the National Green Tribunal (Western Zone Bench, Pune), New Administrative Building, 1st Floor, D-Wing, Opposite Council Hall, Pune, if preferred, within 30 days as prescribed under Section 16 of the National Green Tribunal Act, 2010.

M/s. Advani Properties LLP.
S. No. 81/27 (pt), Mumdhwa,
Pune

Subject : - Environmental Clearance for Proposed Construction Project Advani Commercial Tower at S. No. 81/27 (pt), Mundhwa, Pune by M/s. Advani Properties LLP.

Reference : Application no. SIA/MH/MIS/129500/2019

This has reference to your communication on the above mentioned subject. The proposal was considered by the SEAC-3 in its 103rd meeting under screening category 8 (a) B2 as per EIA Notification, 2006 and recommend to SEIAA. Proposal then considered in 215th meeting of State Level Environment Impact Assessment Authority (SEIAA).

2. Brief Information of the project submitted by you is as below:-

Details of the proposal submitted by PP are as below:	
Proposal No	SIA/MH/MIS/129500/2019
Name of project	Advani Commercial Tower
Project Category	8a (B2)
Type Of Institution	Private
Project Proponent	Name: Mr. Varun Anil Advani Office address: D 10/11 Mantri Manor Society, Lane No. 5, Koregaon Park Pune 411001,Pune,Maharashtra-411001 Contact No: 020-26155859 e-mail: info@advani.com
Consultant	Enviro Analyst and Engineers Pvt. Ltd.
Applied for	EC
Details of Previous EC	Not any
Location of Project	Mouje Mundhwa, Pune
Latitude and Longitude	18°32'5.95"N, 73°54'42.41"E
Total Plot area (m ²)	8125.28
Deductions (m ²)	2891.33
Net Plot area (m ²)	5233.95
Proposed FSI area (m ²)	14607.62
Proposed Non FSI area (m ²)	12945.84
Proposed TBUA (m ²)	27,553.46
TBUA (m ²) approved by	Applied for Sanction with following areas :

Planning authority till date	FSI - 13891.11 Non FSI -15297.85 Total BUA - 25115.20			
Ground Coverage (m ²)	1003			
Total Project Cost (Rs)	Rs. 84.73 Cr.			
CER as per MoEF and CC circular dated 1.5.2018	Activity	Location	Cost (Rs.)	Duration
	Avenue Plantation	Proposed plantation with tree guard along 0.50 Km Road along Old Mundhwa road About 84 Nos. of Trees.	5.04	5 years

3. The proposal has been considered by SEIAA in its 215th meeting and decided to accord Environment Clearance to the said project under the provisions of Environment Impact Assessment Notification, 2006 subject to implantation of following terms and conditions-

Specific Conditions:

SEAC Conditions-

1. Stack parking is shown in all 3 basements accommodating 329 cars. PP to obtain specific sanction from PMC for the sophisticated parking arrangements. PP to obtain basement approval plan accordingly. PP to obtain approval for 2 wheeler parking on 4th floor.
2. PP to submit evacuation plan for entire project for occupants, visitors and as well as cars.
3. PP to obtain and submit following NOC's: (a) CFO NOC, (b) Tree Cutting.

SEIAA Conditions

1. PP to submit revised evacuation time calculations.
2. PP to submit the CFO NOC, Tree cutting NOC. EC will be issued only after submission of above said NOCs.
3. PP Shall comply with Standard EC conditions mentioned in the Office Memorandum issued by MoEF& CC vide F.No.22-34/2018-IA.III dt.04.01.2019.

General Conditions:

a) Construction Phase :-

- I. The solid waste generated should be properly collected and segregated. Dry/inert solid waste should be disposed of to the approved sites for land filling after recovering recyclable material.
- II. Disposal of muck, Construction spoils, including bituminous material during construction phase should not create any adverse effect on the neighbouring communities and be disposed taking the necessary precautions for general safety and health aspects of people, only in the approved sites with the approval of competent authority.
- III. Any hazardous waste generated during construction phase should be disposed off as per applicable rules and norms with necessary approvals of the Maharashtra Pollution Control Board.
- IV. Adequate drinking water and sanitary facilities should be provided for construction workers at the site. Provision should be made for mobile toilets. The safe disposal of wastewater and solid wastes generated during the construction phase should be ensured.
- V. Arrangement shall be made that waste water and storm water do not get mixed.
- VI. Water demand during construction should be reduced by use of pre-mixed concrete, curing agents and other best practices.
- VII. The ground water level and its quality should be monitored regularly in consultation with Ground Water Authority.
- VIII. Permission to draw ground water for construction of basement if any shall be obtained from the competent Authority prior to construction/operation of the project.
- IX. Fixtures for showers, toilet flushing and drinking should be of low flow either by use of aerators or pressure reducing devices or sensor based control.
- X. The Energy Conservation Building code shall be strictly adhered to.
- XI. All the topsoil excavated during construction activities should be stored for use in horticulture / landscape development within the project site.
- XII. Additional soil for levelling of the proposed site shall be generated within the sites (to the extent possible) so that natural drainage system of the area is protected and improved.
- XIII. Soil and ground water samples will be tested to ascertain that there is no threat to ground water quality by leaching of heavy metals and other toxic contaminants.
- XIV. PP to strictly adhere to all the conditions mentioned in Maharashtra (Urban Areas) Protection and Preservation of Trees Act, 1975 as amended during the validity of Environment Clearance.
- XV. The diesel generator sets to be used during construction phase should be low sulphur diesel type and should conform to Environments (Protection) Rules prescribed for air and noise emission standards.
- XVI. PP to strictly adhere to all the conditions mentioned in Maharashtra (Urban Areas) Protection and Preservation of Trees Act, 1975 as amended during the validity of Environment Clearance.
- XVII. Vehicles hired for transportation of Raw material shall strictly comply the emission norms

prescribed by Ministry of Road Transport & Highways Department. The vehicle shall be adequately covered to avoid spillage/leakages.

- XVIII. Ambient noise levels should conform to residential standards both during day and night. Incremental pollution loads on the ambient air and noise quality should be closely monitored during construction phase. Adequate measures should be made to reduce ambient air and noise level during construction phase, so as to conform to the stipulated standards by CPCB/MPCB.
- XIX. Diesel power generating sets proposed as source of backup power for elevators and common area illumination during construction phase should be of enclosed type and conform to rules made under the Environment (Protection) Act, 1986. The height of stack of DG sets should be equal to the height needed for the combined capacity of all proposed DG sets. Use low sulphur diesel is preferred. The location of the DG sets may be decided with in consultation with Maharashtra Pollution Control Board.
- XX. Regular supervision of the above and other measures for monitoring should be in place all through the construction phase, so as to avoid disturbance to the surroundings by a separate environment cell /designated person.

B) Operation phase:-

- XXI. a) The solid waste generated should be properly collected and segregated. b) Wet waste should be treated by Organic Waste Converter and treated waste (manure) should be utilized in the existing premises for gardening. And, no wet garbage will be disposed outside the premises. c) Dry/inert solid waste should be disposed of to the approved sites for land filling after recovering recyclable material.
- I. E-waste shall be disposed through Authorized vendor as per E-waste (Management and Handling) Rules, 2016.
- II. a) The installation of the Sewage Treatment Plant (STP) should be certified by an independent expert and a report in this regard should be submitted to the MPCB and Environment department before the project is commissioned for operation. Treated effluent emanating from STP shall be recycled/ reused to the maximum extent possible. Treatment of 100% grey water by decentralized treatment should be done. Necessary measures should be made to mitigate the odour problem from STP. b) PP to give 100 % treatment to sewage /Liquid waste and explore the possibility to recycle at least 50 % of water, Local authority should ensure this.
- III. Project proponent shall ensure completion of STP, MSW disposal facility, green belt development prior to occupation of the buildings. As agreed during the SEIAA meeting, PP to explore possibility of utilizing excess treated water in the adjacent area for gardening before discharging it into sewer line No physical occupation or allotment will be given unless all above said environmental infrastructure is installed and made functional including water requirement.
- IV. The Occupancy Certificate shall be issued by the Local Planning Authority to the project only after ensuring sustained availability of drinking water, connectivity of sewer line to the project site and proper disposal of treated water as per environmental norms.
- V. Traffic congestion near the entry and exit points from the roads adjoining the proposed project site must be avoided. Parking should be fully internalized and no public space should be utilized.
- VI. PP to provide adequate electric charging points for electric vehicles (EVs).
- VII. Green Belt Development shall be carried out considering CPCB guidelines including selection of plant species and in consultation with the local DFO/ Agriculture Dept.
- VIII. A separate environment management cell with qualified staff shall be set up for implementation

of the stipulated environmental safeguards.

- IX. Separate funds shall be allocated for implementation of environmental protection measures/EMP along with item-wise breaks-up. These cost shall be included as part of the project cost. The funds earmarked for the environment protection measures shall not be diverted for other purposes.
- X. The project management shall advertise at least in two local newspapers widely circulated in the region around the project, one of which shall be in the Marathi language of the local concerned within seven days of issue of this letter, informing that the project has been accorded environmental clearance and copies of clearance letter are available with the Maharashtra Pollution Control Board and may also be seen at Website at <http://parivesh.nic.in>
- XI. Project management should submit half yearly compliance reports in respect of the stipulated prior environment clearance terms and conditions in hard & soft copies to the MPCB & this department, on 1st June & 1st December of each calendar year.
- XII. A copy of the clearance letter shall be sent by proponent to the concerned Municipal Corporation and the local NGO, if any, from whom suggestions/representations, if any, were received while processing the proposal. The clearance letter shall also be put on the website of the Company by the proponent.
- XIII. The proponent shall upload the status of compliance of the stipulated EC conditions, including results of monitored data on their website and shall update the same periodically. It shall simultaneously be sent to the Regional Office of MoEF, the respective Zonal Office of CPCB and the SPCB. The criteria pollutant levels namely; SPM, RSPM, SO₂, NO_x (ambient levels as well as stack emissions) or critical sector parameters, indicated for the project shall be monitored and displayed at a convenient location near the main gate of the company in the public domain.

C) General EC Conditions:-

- I. PP has to strictly abide by the conditions stipulated by SEAC& SEIAA.
- II. If applicable Consent for Establishment" shall be obtained from Maharashtra Pollution Control Board under Air and Water Act and a copy shall be submitted to the Environment department before start of any construction work at the site.
- III. Under the provisions of Environment (Protection) Act, 1986, legal action shall be initiated against the project proponent if it was found that construction of the project has been started without obtaining environmental clearance.
- IV. The project proponent shall also submit six monthly reports on the status of compliance of the stipulated EC conditions including results of monitored data (both in hard copies as well as by e-mail) to the respective Regional Office of MoEF, the respective Zonal Office of CPCB and the SPCB.
- V. The environmental statement for each financial year ending 31st March in Form-V as is mandated to be submitted by the project proponent to the concerned State Pollution Control Board as prescribed under the Environment (Protection) Rules, 1986, as amended subsequently, shall also be put on the website of the company along with the status of compliance of EC conditions and shall also be sent to the respective Regional Offices of MoEF by e-mail.
- VI. No further Expansion or modifications, other than mentioned in the EIA Notification, 2006 and its amendments, shall be carried out without prior approval of the SEIAA. In case of deviations or alterations in the project proposal from those submitted to SEIAA for clearance, a fresh reference shall be made to the SEIAA. as applicable to assess the adequacy of conditions imposed and to add additional environmental protection measures required, if any.

VII. This environmental clearance is issued subject to obtaining NOC from Forestry & Wild life angle including clearance from the standing committee of the National Board for Wild life as if applicable & this environment clearance does not necessarily implies that Forestry & Wild life clearance granted to the project which will be considered separately on merit.

4. The environmental clearance is being issued without prejudice to the action initiated under EP Act or any court case pending in the court of law and it does not mean that project proponent has not violated any environmental laws in the past and whatever decision under EP Act or of the Hon'ble court will be binding on the project proponent. Hence this clearance does not give immunity to the project proponent in the case filed against him, if any or action initiated under EP Act.

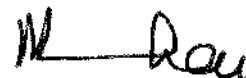

5. This Environment Clearance is issued purely from an environment point of view without prejudice to any court cases and all other applicable permissions/ NOCs shall be obtained before starting proposed work at site.

6. In case of submission of false document and non-compliance of stipulated conditions, Authority/ Environment Department will revoke or suspend the Environment clearance without any intimation and initiate appropriate legal action under Environmental Protection Act, 1986.

7. Validity of Environment Clearance: The environmental clearance accorded shall be valid as per EIA Notification, 2006, amended time to time.

8. The above stipulations would be enforced among others under the Water (Prevention and Control of Pollution) Act, 1974, the Air (Prevention and Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986 and rules there under, Hazardous Wastes (Management and Handling) Rules, 1989 and its amendments, the public Liability Insurance Act, 1991 and its amendments.

9. Any appeal against this Environment clearance shall lie with the National Green Tribunal (Western Zone Bench, Pune), New Administrative Building, 1st Floor, D-Wing, Opposite Council Hall, Pune, if preferred, within 30 days as prescribed under Section 16 of the National Green Tribunal Act, 2010.

1	5.1 Used or spent oil	100	Ltr/A	Reprocessing	To Authorized Reprocessor

8. **Conditions under E-Waste Management:**

Sr No	Type of Waste	Quantity	UoM	Disposal Path
1	E-Waste	6.52	Kg/Day	To Authorized Dismantler/Agency

9. This Board reserves the right to review, amend, suspend, revoke etc. this consent and the same shall be binding on the industry.

10. This consent should not be construed as exemption from obtaining necessary NOC/permission from any other Government agencies.

11. Project Proponent shall install online monitoring system for the parameter pH, SS, BOD and flow at the outlet of STP.

12. Project Proponent shall provide Organic waste digester with composting facility or biodigester with composting facility for the treatment of wet garbage.

13. Project Proponent shall comply the Construction and Demolition Waste Management Rules, 2016 which is notified by Ministry of Environment, Forest and Climate Change dtd.29/03/2016.

14. The project proponent shall make provision of charging of electric vehicles in atleast 40 % of total available parking area.
15. The project proponent shall take adequate measures to control dust emission and noise level during construction phase.
16. This consent is issued with overriding effect on ealier consent to establish granted vide No Format1.0/JD (WPC)/UAN No.0000106046/CE-2104000168 dtd. 05.04.021
17. Project Proponent Shall obtain NOC from Central ground water Authority (CGWA) for extraction of ground water for proposed activity
18. PP shall obtain Environmental Clearance from competent authority for the proposed expansion in construction activity. PP shall not take effective steps towards expansion in construction without obtaining Environmental Clearance for expansion.
19. PP shall submit an affidavit in Board's prescribed format within 15 days regarding compliance of C to E.

Received Consent fee of -

Sr.No	Amount(Rs.)	Transaction/DR.No.	Date	Transaction Type
1	50000.00	MPCB-DR-8982	29/11/2021	NEFT

Copy to:

1. Regional Officer, MPCB, Pune and Sub-Regional Officer, MPCB, Pune I
- They are directed to ensure the compliance of the consent conditions.
2. Chief Accounts Officer, MPCB, Sion, Mumbai

SCHEDULE-I

Terms & conditions for compliance of Water Pollution Control:

- 1) A) As per your application, you have proposed to provide Sewage Treatment Plant (STP) with design capacity of 120 CMD based on MBBR
B) The treated domestic effluent shall be 60% recycled for secondary purposes such as toilet flushing, air conditioning, cooling tower make up, firefighting etc. and remaining shall be utilized on land for gardening and connected to the sewerage system provided by local body.
- 2) The Board reserves its rights to review plans, specifications or other data relating to plant setup for the treatment of waterworks for the purification thereof & the system for the disposal of sewage or trade effluent or in connection with the grant of any consent conditions. The Applicant shall obtain prior consent of the Board to take steps to establish the unit or establish any treatment and disposal system or and extension or addition thereto.
- 3) The industry shall ensure replacement of pollution control system or its parts after expiry of its expected life as defined by manufacturer so as to ensure the compliance of standards and safety of the operation thereof.
- 4) **The Applicant shall comply with the provisions of the Water (Prevention & Control of Pollution) Act,1974 and as amended, and other provisions as contained in the said act.**

Sr. No.	Purpose for water consumed	Water consumption quantity (CMD)
1.	Industrial Cooling, spraying in mine pits or boiler feed	0.00
2.	Domestic purpose	129.00
3.	Processing whereby water gets polluted & pollutants are easily biodegradable	0.00
4.	Processing whereby water gets polluted & pollutants are not easily biodegradable and are toxic	0.00

- 5) The Applicant shall provide Specific Water Pollution control system as per the conditions of EP Act, 1986 and rule made there under from time to time.

SCHEDULE-II

Terms & conditions for compliance of Air Pollution Control:

- 1) **As per your application, you have proposed to provide the Air pollution control (APC) system and also proposed to erect following stack (s) and to observe the following fuel pattern-**

Stack No.	Stack Attached To	APC System	Height in Mtrs.	Type of Fuel	Quantity & UoM
S-1	DG Sets 625 KVA	Acoustic enclosure	5	HSD	312.5 Ltr/Hr
S-2	DG Sets 625 KVA	Acoustic enclosure	5	HSD	312.5 Ltr/Hr

- 2) The applicant shall operate and maintain above mentioned air pollution control system, so as to achieve the level of pollutants to the following standards.

Total Particular matter	Not to exceed	150 mg/Nm ³
-------------------------	---------------	------------------------

- 3) The Applicant shall obtain necessary prior permission for providing additional control equipment with necessary specifications and operation thereof or alteration or replacement well before its life come to an end or erection of new pollution control equipment.
- 4) The Board reserves its rights to vary all or any of the condition in the consent, if due to any technological improvement or otherwise such variation (including the change of any control equipment, other in whole or in part is necessary).
- 5) **Conditions for utilities like Kitchen, Eating Places, Canteens:-**
- The kitchen shall be provided with exhaust system chimney with oil catcher connected to chimney through ducting.
 - The toilet shall be provided with exhaust system connected to chimney through ducting.
 - The air conditioner shall be vibration proof and the noise shall not exceed 68 dB(A).
 - The exhaust hot air from A.C. shall be attached to Chimney at least 5 mtrs. higher than the nearest tallest building through ducting and shall discharge into open air in such a way that no nuisance is caused to neighbors.

SCHEDULE-III

SCHEDULE-IV

Conditions during construction phase

A	During construction phase, applicant shall provide temporary sewage and MSW treatment and disposal facility for the staff and worker quarters.
B	During construction phase, the ambient air and noise quality shall be maintained and should be closely monitored through MoEF approved laboratory.
C	Noise should be controlled to ensure that it does not exceed the prescribed standards. During night time the noise levels measured at the boundary of the building shall be restricted to the permissible levels to comply with the prevalent regulations.

General Conditions:

1. Consumers or bulk consumers of electrical and electronic equipment listed in Schedule I shall ensure that e-waste generated by them is channelised through collection centre or dealer of authorised producer or dismantler or recycler or through the designated take back service provider of the producer to authorised dismantler or recycler
2. Bulk consumers of electrical and electronic equipment listed in Schedule I shall maintain records of e-waste generated by them in Form-2 and make such records available for scrutiny by the concerned State Pollution Control Board
3. Consumers or bulk consumers of electrical and electronic equipment listed in Schedule I shall ensure that such end-of-life electrical and electronic equipment are not admixed with e-waste containing radioactive material as covered under the provisions of the Atomic Energy Act, 1962 (33 of 1962) and rules made there under;
4. Bulk consumers of electrical and electronic equipment listed in Schedule I shall file annual returns in Form-3, to the concerned State Pollution Control Board on or before the 30th day of June following the financial year to which that return relates. In case of the bulk consumer with multiple offices in a State, one annual return combining information from all the offices shall be filed to the concerned State Pollution Control Board on or before the 30th day of June following the financial year to which that return relates.
5. The applicant shall provide facility for collection of samples of sewage effluents, air emissions and hazardous waste to the Board staff at the terminal or designated points and shall pay to the Board for the services rendered in this behalf.
6. The firm shall strictly comply with the Water (P&CP) Act, 1974, Air (P&CP) Act, 1981 and Environmental Protection Act 1986 and Solid Waste Management Rule 2016, Noise (Pollution and Control) Rules, 2000 and E-Waste (Management & Handling Rule 2011.
7. Drainage system shall be provided for collection of sewage effluents. Terminal manholes shall be provided at the end of the collection system with arrangement for measuring the flow. No sewage shall be admitted in the pipes/sewers downstream of the terminal manholes. No sewage shall find its way other than in designed and provided collection system.
8. Vehicles hired for bringing construction material to the site should be in good condition and should conform to applicable air and noise emission standards and should be operated only during non-peak hours.

- 9 Conditions for D.G. Set
- a) Noise from the D.G. Set should be controlled by providing an acoustic enclosure or by treating the room acoustically.
 - b) Industry should provide acoustic enclosure for control of noise. The acoustic enclosure/ acoustic treatment of the room should be designed for minimum 25 dB (A) insertion loss or for meeting the ambient noise standards, whichever is on higher side. A suitable exhaust muffler with insertion loss of 25 dB (A) shall also be provided. The measurement of insertion loss will be done at different points at 0.5 meters from acoustic enclosure/room and then average.
 - c) Industry should make efforts to bring down noise level due to DG set, outside industrial premises, within ambient noise requirements by proper siting and control measures.
 - d) Installation of DG Set must be strictly in compliance with recommendations of DG Set manufacturer.
 - e) A proper routine and preventive maintenance procedure for DG set should be set and followed in consultation with the DG manufacturer which would help to prevent noise levels of DG set from deteriorating with use.
 - f) D.G. Set shall be operated only in case of power failure.
 - g) The applicant should not cause any nuisance in the surrounding area due to operation of D.G. Set.
 - h) The applicant shall comply with the notification of MoEFCC, India on Environment (Protection) second Amendment Rules vide GSR 371(E) dated 17.05.2002 and its amendments regarding noise limit for generator sets run with diesel.
- 10 Solid Waste - The applicant shall provide onsite municipal solid waste processing system & shall comply with Solid Waste Management Rule 2016 & E-Waste (M & H) Rule 2011.
- 11 Affidavit undertaking in respect of no change in the status of consent conditions and compliance of the consent conditions the draft can be downloaded from the official web site of the MPCB.
- 12 Applicant shall submit official e-mail address and any change will be duly informed to the MPCB.
- 13 The treated sewage shall be disinfected using suitable disinfection method.
- 14 The firm shall submit to this office, the 30th day of September every year, the environment statement report for the financial year ending 31st march in the prescribed Form-V as per the provision of rule 14 of the Environmental (Protection) Second Amended rule 1992.
- 15 The applicant shall obtain Consent to Operate from Maharashtra Pollution Control Board before commissioning of the project.

This certificate is digitally & electronically signed.

Your Service Is Our Duty

Sub: Consent to Establish for construction of commercial project granted under Orange Category

Ref: 1. Your application vide No UAN No. 0106046 dt.08/01/2021

Your application NO. MPCB-CONSENT-0000106046

For: grant of Consent to Establish under Section 25 of the Water (Prevention & Control of Pollution) Act, 1974 & under Section 21 of the Air (Prevention & Control of Pollution) Act, 1981 and Authorization / Renewal of Authorization under Rule 6 of the Hazardous & Other Wastes (Management & Transboundary Movement) Rules 2016 is considered and the consent is hereby granted subject to the following terms and conditions and as detailed in the schedule I, II, III & IV annexed to this order:

1. The Consent to Establish is valid for a period upto commissioning of project or up to 5 year whichever is earlier.
2. The capital investment of the project is Rs.84.73 Cr. (As per undertaking submitted by pp).
3. The Consent to Establish is valid for construction of commercial named as M/s. A Advani Properties LLP., S. No. 81/27 (pt), S. No. 81/27 (pt), Corresponding CTS No. 1340 Mouje Mundhwa, Taluka - Haveli, Dist: Pune on Total Plot Area of 8125.28 SqMtrs for construction BUA of 27553.46 SqMtrs including utilities and services as per commencement certificate issued by local body
4. Conditions under Water (P&CP), 1974 Act for discharge of effluent:

Sr No	Description	Permitted (in CMD)	Standards to	Disposal
1.	Trade effluent	Nil	0	0
2.	Domestic effluent	60	As per Schedule - I	The treated effluent shall be 60% recycled for secondary purposes such as toilet flushing, air conditioning, cooling tower make up, firefighting etc. and remaining shall be connected to the sewerage system provided by local body

5. **Conditions under Air (P& CP) Act, 1981 for air emissions:**

Stack No.	Description of stack / source	Number of Stack	Standards to be achieved
S-1 to S-2	DG Sets 625 (2 Nos.)	2	As per Schedule -II

6. **Conditions under Solid Waste Rules, 2016:**

Sr No	Type Of Waste	Quantity & UoM	Treatment	Disposal
1	Bio degradable waste	418 Kg/Day	Organics waste Converter with composting facility / Biogas digester with composting facility	used as manure
2	Non Biodegradable waste	282 Kg/Day		Segregate and Hand over to Local Body for recycling Used as manure
3	STP Sludge	3 Kg/Day		used as manure
4	E-waste	4.2 Kg/Day	Recyclers	sent to Authorized recyclers

7. **Conditions under Hazardous & Other Wastes (M & T M) Rules 2016 for treatment and disposal of hazardous waste:**

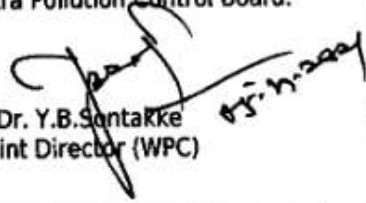

Sr No	Category No.	Quantity	UoM	Treatment	Disposal
NA					

- 8 This Board reserves the right to review, amend, suspend, revoke etc. this consent and the same shall be binding on the industry.
- 9 This consent should not be construed as exemption from obtaining necessary NOC/permission from any other Governmental agencies.
- 10 Project Proponent shall comply the Construction and Demolition Waste Management Rules, 2016 which is notified by Ministry of Environment, Forest and Climate Change dtd.29/03/2016
- 11 The treated effluent shall be 60% recycled for secondary purposes such as toilet flushing, air conditioning, cooling tower make up, firefighting etc. and remaining shall be utilized on land for gardening.
- 12 PP shall install online monitoring system for pH BOD, TSS and flow at the outlet of STP with connectivity to MPCB Server.
- 13 Project Proponent shall submit an affidavit in Board's prescribed format within 15 days regarding the compliance of conditions of EC/CRZ clearance and C to E
- 14 Project Proponent shall install organic waste digester along with composting facility/biodigester (biogas) with composting facility for the treatment of wet garbage.
- 15 Project Proponent Shall not use groundwater till obtained permission from Central ground water Authority (CGWA).
- 16 Project Proponent shall take adequate measures to control dust emissions and noise level during construction phase.
- 17 Project Proponent shall make provision of charging port for Electric vehicles at least 10 % of total available parking

18 Project Proponent shall not take any effective steps towards implementation of projects prior to obtaining Environmental clearance from competent authority

SCHEDULE-I

Terms & conditions for compliance of Water Pollution Control:

1) A) As per your application, you have proposed to provide MBBR based Sewage Treatment Plants (STPs) of combined capacity **60 CMD for treatment of domestic effluent of 60 CMD.**

B) The Applicant shall operate the sewage treatment plant (STP) to treat the sewage so as to achieve the following standards prescribed by the Board or under EP Act, 1986 and Rules made there under from time to time, whichever is stringent.

Sr.No	Parameters	Limiting concentration not to exceed in mg/l, except for pH
1	pH	5.5-9.0
2	BOD	10
3	COD	50
4	TSS	20
5	NH4 N	5
6	N-total	10
7	Fecal Coliform	less than 100

C) The treated domestic effluent shall be 60% recycled for secondary purposes such as toilet flushing, air conditioning, cooling tower make up, firefighting etc. and remaining shall be utilized on land for gardening and connected to the sewerage system provided by local body.

2) The Board reserves its rights to review plans, specifications or other data relating to plant setup for the treatment of waterworks for the purification thereof & the system for the disposal of sewage or trade effluent or in connection with the grant of any consent conditions. The Applicant shall obtain prior consent of the Board to take steps to establish the unit or establish any treatment and disposal system or and extension or addition thereto.

3) The industry shall ensure replacement of pollution control system or its parts after expiry of its expected life as defined by manufacturer so as to ensure the compliance of standards and safety of the operation thereof.

4) **The Applicant shall comply with the provisions of the Water (Prevention & Control of Pollution) Act, 1974 and as amended, and other provisions as contained in the said act.**

Sr. No.	Purpose for water consumed	Water consumption quantity (CMD)
1.	Industrial Cooling, spraying in mine pits or boiler feed	0.00
2.	Domestic purpose	67.00
3.	Processing whereby water gets polluted & pollutants are easily biodegradable	0.00
4.	Processing whereby water gets polluted & pollutants are not easily biodegradable and are toxic	0.00

5) The Applicant shall provide Specific Water Pollution control system as per the conditions of EP Act, 1986 and rule made there under from time to time.

SCHEDULE-II

Terms & conditions for compliance of Air Pollution Control:

- 1) As per your application, you have proposed to provide the Air pollution control (APC) system and also proposed to erect following stack (s) and to observe the following fuel pattern-

Stack No.	Stack Attached To	APC System	Height in Mtrs.	Type of Fuel	Quantity & UoM
S-1 to S-2	DG Sets 625 (2 Nos.)	Acoustic enclosure	5	HSD	312.5 Ltr/Hr

- 2) The applicant shall operate and maintain above mentioned air pollution control system, so as to achieve the level of pollutants to the following standards.

Total Particular matter	Not to exceed	150 mg/Nm ³
-------------------------	---------------	------------------------

- 3) The Applicant shall obtain necessary prior permission for providing additional control equipment with necessary specifications and operation thereof or alteration or replacement well before its life come to an end or erection of new pollution control equipment.
- 4) The Board reserves its rights to vary all or any of the condition in the consent, if due to any technological improvement or otherwise such variation (including the change of any control equipment, other in whole or in part is necessary).
- 5) **Conditions for utilities like Kitchen, Eating Places, Canteens:-**

- a) The kitchen shall be provided with exhaust system chimney with oil catcher connected to chimney through ducting.
- b) The toilet shall be provided with exhaust system connected to chimney through ducting.
- c) The air conditioner shall be  and the noise shall not exceed 68 dB(A).
- d) The exhaust hot air from A.C. shall be attached to Chimney at least 5 mtrs. higher than the nearest tallest building through ducting and shall discharge into open air in such a way that no nuisance is caused to neighbors.

Android 13 Beta 3.1 Out with a Big Fix

WASHINGTON Google launched Android 13 Beta 3 for Pixel smartphones on June 8, 2022. Just two days later, the firm updated Android 13 Beta 3.1 to correct a single issue—the Android Beta Feedback app was missing for some users. According to GSM Arena, it's unclear why the Android Beta Feedback app was missing from Beta 3 in the first place, given that primary idea of the beta is to collect feedback from users, but it's wonderful to see Google promptly fixing the issue by issuing a tiny point bump to the third beta. There are no new fixes in Android 13 Beta 3.1, and Google claims that the known issues from Beta 3 still apply to Beta 3.1. **ANI**

New Telegram Premium Out this Month

WASHINGTON Telegram will add a premium layer this month. The firm's founder Pavel Durov confirmed the rumours that began to circulate last month. According to GSM Arena, Telegram Premium will be available by end of the month. However, all of the present free features will continue to be available. Telegram Premium would give everyone access to extra features, speed and resources, according to Durov. It would

AUTOMATION GAINING TRACTION AS STARTUPS AND TECH COS LOOK TO CUT COSTS

Automation Saves the Day for Indian IT amid High Attrition

ON THE RISE Market size for digital automation to touch \$600 billion this fiscal, says Gartner report

Saishwarbarath
@timesgroup.com
Bengaluru: The automation of repetitive tasks is coming to the rescue of IT companies amid high attrition rates and cost cuts in a high inflationary environment. Global IT research firm Gartner has predicted that the market size for digital automation will touch around \$600 billion in the ongoing fiscal year, a 36% annualised growth rate over five years. Infosys, India's second largest software services firm by revenue, has accelerated automation to bring in efficiency and productivity through 24,000 bots. "We have something called bot factory and the idea is to constantly re-baseline our productivity so that we stay ahead of the curve in winning large deals, staying competitive," says S Ravi Kumar, president, Infosys at its annual analyst day event

BALAKRISHNA DR
Senior VP, Infosys
Automation is one of the primary levers for touch-less operations. There is a jump in demand leading to industry-wide automation adoption

A Way Out

- Infosys is accelerating automation to bring efficiency and productivity via 24k bots
- Co sees efficiency improve by 10-20% each year
- AI will be majority of Tech's business process services offerings
- Key reason attrition remains stable: Tech!

last month. The IT services provider has seen efficiency by 10-20% each year, both internally and externally due to its automation solutions. "AI and Automation are widely used both internally at Infosys to bring in hyper-productivity and externally to help our customers unlock value across their enterprises," Balakrishna DR, senior vice president, service offering head — energy, communication and services, AI and automation at Infosys, told ET. "Automation is one of the primary levers for touch-less operations. There is a jump in demand leading to industry-wide automation adoption."

Automation has gained traction as startups and global enterprises reduce costs and freeze hiring as they brace for a business environment where interest rates could go up due to inflation. In the case of TechMahindra's business process services, AI is expected to be the majority of its services offerings. "It's a long-term offering to the customer, as he/she is no longer dependent on humans," said Jagdish Mittal, chief strategy officer, Tech Mahindra. "It could be the reason for our attrition remaining stable as people naturally have a chance to reskill and upskill to take up a higher role. It is a talent retention model in an indirect way." The firm had reduced headcount by 5,000 in FY22 due to automation in the business process services segment. Bengaluru-based IT firm Happiest Minds Technologies, 26.2% of whose total revenue last fiscal year was driven from automation, also said test automation, infrastructure and security automation and business process automation were the main themes of deployment of the technology. **(For full report, go to www.economictimes.com)**

Battery Swapping for Higher-range EVs can Ease Range Anxiety: Firms

EV industry seeks policy focus on higher range to sidestep concerns around lower dock availability

Bharan.V@timesgroup.com
Chennai: Battery swapping for electric vehicles (EVs) should focus on higher-range vehicles, as lower availability of docks initially for a swap, industrialists said. This came in response to a paper by government think tank Niti Aayog. They, however, agreed that swapping was a well-considered option to start the adoption of EVs despite fundamental questions about its viability. IT industry body Nasscom, in its response to Niti Aayog's Draft Battery Swapping Policy, has recommended that batteries with a higher range, about 80-100 kilometers a swap, should be encouraged to meet demand to go longer distances

Powering Up

NASSCOM: EV riders likely to rush to a swap dock due to range anxiety
NITI AAYOG: pushes battery swapping as an alternative to charging

ALTIGREEN SAYS lack of ownership of the battery by the user will work against battery swapping concept
Experts back battery swapping push

"without having to take detours to find a battery swap dock," Nasscom, which has among its members EV brands such as Ather Energy, has also pointed out that EV riders are likely to rush to a swap dock due to "range anxiety", meaning users could initiate swap before the battery runs out. The budget had outlined a battery swapping policy for EVs. The Niti Aayog paper drives battery swapping as an alternative to charging to reduce cost as two-wheelers and e-rickshaws/e-carts. It also envisages demand-side incentives for buyers and battery providers. An EV user would purchase a vehicle without a battery, significantly cut upfront costs, and become a subscriber with a battery provider and pay regular charges for battery services throughout the vehicle's lifetime. Industry representatives, EV makers and academics have also welcomed the policy, though they say that several issues — from interoperability of battery packs to pricing to range predictability — remain. EV company Altigrreen, which successfully tested a 150-km drive on its electric three-wheeler for last mid-year, recently belatedly the "lack of ownership" of the battery by the user would work against the battery swapping concept. Academics agree that battery swapping needs to be promoted even as charging infrastructure is developed, in order to offer users additional flexibility. **(For full report, go to www.economictimes.com)**

How Safe Are Tech Systems Like Tesla's Autopilot? No One Knows

Automakers and technology companies say they are making driving safer, but it's tough to verify

Cade Metz
Every three months, Tesla publishes a safety report that provides the number of miles between crashes when drivers use the company's driver-assistance system, Autopilot, and the number of miles between crashes when they do not. These figures always show that accidents are less frequent with Autopilot. But the numbers are misleading. Autopilot is used mainly for highway driving, which is generally twice as safe as driving on city streets, according to the Department of Transportation. Fewer crashes may occur with Autopilot merely because it is used in safer situations. Tesla has not provided data that would allow a comparison of Autopilot's safety on the same kinds of roads. Neither have other carmakers. Autopilot has been on public roads since 2015. But publicly available data that reliably measures the safety of these technologies is scant. Carmakers and tech companies are adding more vehicle

features that they claim improve safety, but it is difficult to verify these claims. All the while, fatalities on the country's highways and streets have been climbing in recent years, reaching a 16-year high in 2021. It would seem that any additional safety provided by technological advances is not offsetting poor decisions by drivers behind the wheel. Despite its abilities, Autopilot does not remove responsibility from the driver. Tesla tells drivers to stay alert and be ready to take control of the car at all times. The same is true of BlueCruise and Super Cruise. But the more immediate concern is the safety of Autopilot and other driver-assistance systems, which are installed on hundreds of thousands of vehicles. — NYTNS

Tencent Buys Flipkart Stake worth \$264m from Bansal

Binny Bansal holds around 1.84% stake in Flipkart post deal

PTI
New Delhi: Chinese technology conglomerate Tencent has bought stake worth \$264 million (about ₹2,000 crore) in Flipkart from its cofounder

billion disclosed by the e-commerce firm in July 2022. The company's valuation surged to \$7.6 billion after raising \$3.6 billion (about ₹26,805.6 crore) in funding round led by Singapore's sovereign wealth fund GIC.

Firms Jittery Over India's E-transmission Moratorium Stand

Want WTO moratorium extended by 2 years

Aashish Aryan & Suraksha P
IN A SPOT
New Delhi | Bengaluru: Big Tech companies and policy groups concerned over India's stand on not renewing a World Trade Organisation (WTO) moratorium on electronic transmissions, are pushing to extend it by a further two years. Discussions on the moratorium have begun from June 12. In the absence of a uniform way to assess the value of free email services such as those provided by Google in video calls over Zoom or content over OTT platforms, countries may interpret the rules differently, leading to chaos, experts said. The Ministry of Commerce and Industry has said that India, along with South Africa, had made several joint submissions highlighting the "adverse impact" of extending the moratorium. "India and South Africa have been making several joint submissions highlighting the adverse impact of the moratorium on developing countries and suggesting that a reconsideration of the moratorium is important for developing countries to preserve policy space for their digital advancement, to regulate imports and to generate revenue through customs duties," the ministry said on Saturday. Executives at Big Tech firms told ET that not extending the moratorium could be extremely problematic as there is no way to properly assess what constitutes electronic transmission — with no clear definition available. It could also adversely impact the country's budding outsourcing industry's said.

EXECUTIVES SAY...
Not extending the moratorium can be extremely problematic as no clear definition available
It can adversely impact the country's outsourcing industry
Lifting of moratorium could mean nations would interpret e-transmissions differently

"The key issue, when it is a trade policy question, is what type of transfer of information is captured? Does it go beyond streaming services into e-mail, transfer of data between companies and include voicemail and phone communication in general? That question is wide open," Simon Evenett, professor of international trade and economic

SIMON EVENETT
Professor, University of St. Gallen
The impact of lifting the moratorium would be much more on middle- and low-income countries

InMobi's Glance Counts on US Launch Next Qtr
Firm starts hiring for its US market vertical
Tarush.Bhalla@timesinternet.in
Bengaluru: Lock-screen platform Glance, part of mobile advertising giant InMobi Group, is looking to launch in the United States as early as the next quarter. It has already begun hiring for the vertical. The company will take its live customer solutions including Popo as well as its recent gaming acquisition, Gambit, to the US market over the course of the year. Glance's US aspirations comes at a time when technology behemoth Apple said last week that its lock screen has improved performance, resulting in heated competition for the Indian firm. "Glance is designed to provide lock screen experiences on Android smartphones. Android is the leading OS (operating system) globally with close to 70% market share. In the US itself, Android has more than 45% market share; we have always targeted this substantial and highly lucrative market in the US," Navnet Tewari, founder and chief executive, InMobi, told ET, referring to competition from Apple. "This development does not change anything so far as our plans for this market are concerned. We are backed by Google, which owns the Android ecosystem, and we will continue to march ahead," Tiwari added. **(For full report, go to www.economictimes.com)**

विषय :- स.नं. ८१/२७ (पार्ट) मि. टी. एस नं. १३४० मुंबवा, पुणे ३६ येथील वृक्ष काढणेस मुदतबाध मिळणेबाबत.

संदर्भ :- १) आपला अर्ज आ.क्र. 1969 दिनांक 20.4.2029
२) मा. वृक्ष प्राधिकरण समिती, पुणे मनपा यांचे ठराव क्र. ६/४३७ दिनांक २३/१०/२०२०
३) महाराष्ट्र (नागरी क्षेत्र) शाळांचे जतन अधिनियम १९७५.
४) मे. उच्च न्यायालय, मुंबई यांचे दिनांक २० सप्टेंबर २०१३ रोजीचे आदेश.
(जनहित याचिका क्र. ९३/२००९).

स.नं. ८१/२७ (पार्ट) मि. टी. एस नं. १३४० मुंबवा, पुणे ३६ येथील कामाने अडथळा निर्माण करित आहे. छात्रील वर्णनात नमुद केलेले वृक्ष तोडणेस परवानगी मिळणेबाबत आपले संदर्भित क्र. १ च्या अर्जांनुसार संदर्भित क्र. २ च्या मान्यतेनुसार व वृक्ष अधिकारी नोंदवही दिनांक अन्वये आपणांस छात्रील प्रमाणे परवानगी देणेत येत आहे.

अ.क्र.	वृक्षाचे नाव	मूळ वेढी (मीटर)	उंची (मीटर)	वय वर्ष अंदाजे	परवानगीचा तपशील
१.	१. नारळ - वृ. क्र. २	०.७०	४	१५	सदर ७ वृक्ष बाधकामात बाधित होत असत ५ वृक्ष (अ.क्र. १, २, ३, ४, व ७) पुनरोपण व रक्षण व उर्वरित २ वृक्ष पूर्ण काढणेस देण्यात आलेल्या परवानगीस मुदतबाध देण्यात येत आहे.
२.	२. नारळ वृ. क्र. ३	०.८०	४	१५	
३.	३. नारळ वृ. क्र. ४	०.८०	४	१७	
४.	४. नारळ वृ. क्र. ५	१	५	२०	
५.	५. बुजापूळ वृ. क्र. ६	०.४०	४	१०	१:३ प्रमाणावर वृक्ष लावताना १:२ पुढे
६.	६. बुजापूळ वृ. क्र. १३	०.५०	४	१५	उंचीची स्थानिक प्रजातीची साधानीत पुनरोपण शास्त्रीय पद्धतीने करावे
७.	७. कडुलिंबू - वृ. क्र. १२	०.४०	४	१५	

टीप :- मा. वृक्ष प्राधिकरण यांच्या मान्यतेनुसार शास्त्रीय अटीवर कार्यवाही करणेस परवानगी मुदतबाध देणेत येत आहे.

१) उपरोक्त अ.क्र. १ मधील क्र. १ ते ७ मधील ०२ वृक्ष पूर्ण काढणेस ०५ पुनरोपण करणेस व स्थानिक जातीचे नवीन २१ वृक्षांची लागवड करून संदर्भ क्र. ३ च्या कायद्यान्वये त्यांचे संवर्धन व संरक्षण किमान तीन वर्षे करणे व याबाबतचा अहवाल मा. वृक्ष अधिकारी यांचेकडे महा महिन्यातून एकदा सादर करणे बंधनकारक आहे.

२) सदरहू परवानगीचा कालावधी जाबक दिनांकापुढून तीन महिने मुदतीपर्यंत असेल.

३) प्रस्तुतची परवानगी कोणत्याही नागरिकांनी पाहण्यास मागितल्यास ती दाखविण्यास बंधनकारक आहे.

४) वृक्ष प्राधिकरण विभागाची पाहणी अहवालाचे अवलोकन करून तसेच संदर्भ क्र. २ च्या मान्यतेनुसार परवानगी देणेत येत आहे.

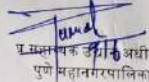

५) जर वृक्षावर पक्ष्याची घट्टी असतील तर ती योग्य त्या ठिकाणी म्यलंतरीत करणे बंधनकारक आहे. त्यामध्ये अडचण निर्माण झाल्यास मा. उपवनसंरक्षक, पुणे विभाग, दूरध्वनी क्र. ०२०-२५६६०५९३ या क्रमांकावर संपर्क साधणे.

६) सदरहू मिळकतीमध्ये उपरोक्त नमुद वृक्षांचेरीज अन्य वृक्ष असावे, वृक्ष मरतील असे कोणतेही प्रकारचे कृत्य करणे हे संदर्भ क्र. ३ मधील कायद्यान्वये मुद्दा आहे.

७) संदर्भ क्र. ४ च्या मे. उच्च न्यायालय, मुंबई यांच्या आदेशान्वये किमान ३ मी उंचीचे, किमान मध्ये वेढी १० से.मी. व किमान ५ वर्षे वयाचे, स्थानिक जातीचे नवीन ०३ वृक्ष लावून त्यांचा अहवाल स्वळदर्शक नकाशा व फोटोसह इकडील कार्यालयास लवकरात लवकर सादर करणे आवश्यक आहे.

८) आपणाकडून उपरोक्त परवानगीपत्राप्रमाणे वृक्षतोडीबाबतची कार्यवाही संबंधीत विभागाच्या हॉर्टीकल्चर मिस्त्री - श्री. भरत गायकवाड (सो. नंबर ८३०८४१५१६) यांच्या नियंत्रणाखाली करणेत यावी.

९) आपणामा व आपुर्वी देण्यात आलेली नोंदीस तोडवाच्यापुनरोपण करावयाच्या वृक्षांवर दकवून वृक्ष काढणेबाबत कोणत्याही नागरिकांची अथवा संस्थेचा अक्षेप आला असल्यास त्याची खातरजमा केल्यानंतर वृक्ष काढणेची कार्यवाही करावी.

To,
The Member Secretary,
State Environment Impact Assessment Authority (SEIAA)
New Administration Building,
2nd floor, Mantralaya, Mumbai Maharashtra,

Dear Sir,

We hereby, certify that, for the project “**Platinum Capital**” Commercial Development located at **S. No. 81/27 (pt), Corresponding CTS No. 1340 Mouje Mundhwa, Pune by M/s A Advani Properties LLP.** The project had earlier received Environmental Clearance vide No. SIA/MH/MIS/129500/2019 dated April 29th, 2021 for the construction area 25,115.20m² (FSI: 13,891.11 m² + Non FSI: 15,297.85 m²).

Now, applied for Expansion in EC for Total Construction Built up area 30101.66 m², based on revised sanction plan No. CC/0690/21, D.P.O Zone No. 04, dated: 24/06/2021.

Pre-excavation soil stabilization work in the form of shore piling at the building periphery has been completed and excavation as per earlier approved EC parameter has been commenced at site.

We certify that no RCC construction work has been carried out on ground till date of SEIAA hearing since last appraisal.

This is for your information and record.

Thanking you,

M. B. Chaudhari

for M. B. Chaudhari & Assoc.
